

The Scientific Method Worksheet

Ask Questions:

1. How do plants absorb water?
2. Will the color of the plant change if the color of the water is changed?

(Before the experiment) Write a hypothesis:

If I change the color of the water, then _____
_____.

(After the experiment) Write a conclusion:

My hypothesis was _____ (correct/incorrect). If I change
the color of the water, then _____
_____ will happen.

I think this happens because _____
_____.
