

The Architecture of Readiness: Moving Upstream with Tier 0

UPSTREAM (Birth-Age 3)

DOWNSTREAM (Kindergarten & Beyond)

TIER 0: PROACTIVE INTERVENTION (Birth-Age 3)

BEDROCK FOUNDATION

BUILD A FOUNDATION WITH TIER 0

Shift from reactive remediation to a Birth-to-Age 3 bedrock that addresses literacy gaps before they form.

EMPOWER PARENTS AS FIRST EDUCATORS

Transform families from passive recipients of information into active partners in their child's early brain development.

100% BILINGUAL AND DEVICE AGNOSTIC

Eliminate the equity divide with English/Spanish resources that work on any smartphone.

ZERO INTERNET REQUIRED

Ensure every child has access to high-quality literacy tools, regardless of home connectivity or location.

STOP THE DOWNSTREAM REMEDIATION CYCLE

Upstream investment reduces the heavy operational weight and cost of special education and tutoring in later grades.
